DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, 10-25, 27-34, 36-49, 51-52 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. While cws1.com teaches the indication of a matching requested service (an advertisement) as including an XML description of the device's (space's) capabilities/description, applicant is convincing when he argues that cws1.com does not disclose (inherently or explicitly) that the advertisement also includes a "data representation language message schema defining said messages in a data representation language". While the advertisement's description of the device's capabilities is in the form of XML (therefore having an XML "schema"), this is not a data representation language message schema which is used to message/interact with the service/space, but rather an XML schema to *describe* its capabilities. This critical language is present in each independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
